Office of the R.L.A.

The view expressed by the Civil supplies Department at pages 5-7 ante which is the same as taken by the R.L.A. in his opinion No. G-565, dated the 14th November 1951, is hereby confirmed. It may however be added, that it would be legally necessary to give an opportunity to the licensee to explain why his license should not be suspended or cancelled and the fact that such opportunity was given should be mentioned in the suspension or cancellation order.
